

The Toughest Tool for Every Gas Leak

GP 2000

The ideal hand-held device for simple and reliable examination of gas installations in closed spaces. The GasPen 2000 offers you:

- easy operation
- precise measuring results
- robust aluminium casing
- explosion protection
- long-life guarantee

Precise and error-free determination of gas leak points

The **GasPen 2000** has been specially-developed for tracking the smallest leaks on armatures, installations and joints. Fitted with a flexible swan-neck, it allows the most difficult to reach and even potentially explosive areas to be examined.

The GasPen 2000

- small and efficient
- robust design
- warns with both a visual and an audible alarm
- allows easy, fatigue-free work due to its light construction
- delivers clear and reliable measuring results via calibration to a defined value
- suitable for checking vehicles with e.g. LPG, CNG

The name Schütz has been synonymous with innovative gas measurement and detection technology for almost forty years.

Schütz guarantees quality and reliability as product development, production and quality assurance are carried out in-house.

Schütz Messtechnik holds ISO 9001:2000 quality management certification, ATEX approval and the German Association of Gas and Water Professions G 468-1 certificate.

GasPen 2000 EX

Technical Data:

Display:	11-step LED
Measuring range:	10 ppm – 50% UEG
Temp. range:	-20 °C – +40 °C
Alarm:	visible and audible alarm
Ignition protection:	Group II category 2G EEx ib IIC d T3 or EEx ib IIC T1 suitable for Zone 1
Testing number:	SEV 04 ATEX 0143
Type of protection:	IP 54
Power Supply:	NiMH 2.4V, 1500 mAh battery
Operating time:	Over 4 hours
Casing:	Powder-coated aluminium casing
Dimensions:	160 x 35 x 20 mm
Weight:	200 g
Scope of delivery:	GasPen 2000, carry case, 230V charger
Accessories:	Vehicle mount with charger, leatherette case
